

MEET MADDIE

INTERNATIONAL ANGELMAN DAY

About

February 15th is International Angelman Day - a day to raise awareness and support for kids like me! Angelman syndrome (AS) is a rare neurogenetic condition caused by the loss of function of the UBE3A gene on the maternal copy of the 15th chromosome.

Those with AS often face significant developmental delays, debilitating seizures, a complete lack of speech, and much more.

But, those with AS are also often known for their happy and excitable personalities and a smile and laugh that can light up any room!

My Favorites

- Color:** Pink and Purple
- Food:** Cheese and Fruit
- Toy:** Balls and Books
- Activity:** Being with Others

Get Involved

There are many ways to help us raise awareness and support for those living with Angelman syndrome!

- WEAR BLUE & SHARE! Send a photo in your BLUE attire to ljshaw84@gmail.com or tag Maddie's Instagram page [@themiraculousmissmaddie](https://www.instagram.com/themiraculousmissmaddie)
- JOIN OUR TEAM! Maddie's family started Maddie's Mission Foundation to support KC organizations and clinical research. See www.themiraculousmissmaddie.org for upcoming events
- FOLLOW US on Instagram [@themiraculousmissmaddie](https://www.instagram.com/themiraculousmissmaddie)
- For questions, contact Maddie's mom, Laura, at 913-530-6274 or ljshaw84@gmail.com
